| 4. FIRST AID MEASURES | | | |
|---|--|--|--|
| Inhalation: | Move to fresh air. If symptoms develop and persist, get medical attention. | | |
| Skin contact: | Wipe off paste with paper towel or cloth. Wash with soap and water. If skin irritation persists, call a physician. | | |
| Eye contact: | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If adverse health effects develop seek medical attention. | | |
| Ingestion: Do not induce vomiting. In case of adverse health effects seek m | | | |
| Symptoms: | See Section 11. | | |
| 5. FIRE FIGHTING MEASURES | | | |
| Extinguishing media: | Foam, dry chemical or carbon dioxide. | | |
| Special firefighting procedures: | Wear self-contained breathing apparatus and full protective clothing, such as turn-out gear. | | |
| Unusual fire or explosion hazards: | Closed containers may rupture (due to build up of pressure) when exposed to extreme heat. | | |
| Hazardous combustion products: | Silica mist. Acrid smoke and fumes. Formaldehyde. | | |

6. ACCIDENTAL RELEASE MEASURES

Use personal protection recommended in Section 8, isolate the hazard area and deny entry to unnecessary and unprotected personnel.

| Environmental precautions: | Do not allow product to enter sewer or waterways. |
|----------------------------|--|
| Clean-up methods: | Store in a partly filled, closed container until disposal. Spilled material will solidify. Scrape up as much material as possible. Maintain good ventilation for large spills. |

7. HANDLING AND STORAGE

Handling:

Do not get in eyes. Avoid contact with eyes, skin and clothing. Do not get on skin or clothing. Do not handle contact lenses until all sealant has been removed from hands. Residual sealant may transfer to lenses and cause eye irritation.

Storage:

Keep container closed. Store in a dry area below 90° F.

Engineering controls:

Ensure adequate ventilation, especially in confined areas.

Respiratory protection:

Eye/face protection:

Safety goggles or safety glasses with side shields.

Skin protection:

Use impermeable gloves and protective clothing as necessary to prevent skin contact.

No personal respiratory protective equipment normally required. Use NIOSH approved respirator if there is potential to exceed exposure limit(s).

| | |

Potential Health Effects/Symptoms

| Inhalation: | When heated to temperatures exceeding 300° F (150° C) in the presence of air, silicones may form formaldehyde vapors. Formaldehyde is a potential cancer hazard and a known skin and respiratory sensitizer. Vapors irritate the eyes, nose and throat. Safe handling conditions may be maintained by keeping formaldehyde vapor concentrations below the OSHA permissible limit. Acetic acid produced during cure may irritate eyes, nose and throat. |
|---------------|--|
| Skin contact: | Causes skin irritation. |
| Eye contact: | This product is severely irritating to the eyes and may cause irreversible damage including burns and blindness. |
| Ingestion: | Not expected under normal conditions of use. May cause gastrointestinal tract irritation if swallowed. |
